PRODUCT BROCHURE

PRO SMOOTH™

Smooth premium exterior wall finishing with complete company-managed material supply and application.

- **A composed exterior**

  A uniform smooth-finish design approach for residential, institutional and commercial walls.

- **Suitable plaster first**

  A site inspection reviews plaster integrity, moisture, cracks and access before any order.

- **Supply & Apply**

  One company team coordinates the material, finishing workflow and project communication.

- **Care and upkeep**

  The project handover covers the agreed appearance, cleaning method and site-specific recommendations.

SCOPE OF SERVICE

PRO SMOOTH is an exterior-facing finishing option. Performance is dependent on the substrate and conditions; request specific test data before making a technical specification.

SITE REVIEW • QUOTATION • PAYMENT • ALLOCATION • FINISH

01 Site assessment

Review plaster condition, dampness and exterior access.

02 Confirm the specification

Agree on project scope, colour, finish, area and quotation.

03 Verify customer payment

Only owner-verified customer payments can proceed to order fulfillment.

04 Allocate material and applicators

Schedule the site and issue the correct finishing materials.

05 Application and closeout

Complete the exterior scope, review finish and record final consumption.
